Strategies for Making Money with Surveys

I am not going to beat around the bush and fill this ebook with junk and the usual 'fluff' that typical ebooks are riddled with. You clicked on the link to get the goods...so let's get to it!

1. **Sign up for as many different survey sites as you can.** This point is very simple...the more survey sites/offers you are signed up for, the more money you can potentially make. I have included a list below of what I feel are the best survey sites available. This is not a complete list by any means, but an excellent starting point. After you sign up for the sites below I encourage you to research other survey sites to build your list even more...and generate more money in the end!
2. **Set up a new email address.** This is a critical step to making money with surveys. If you took the advice in the first strategy and signed up for all the offers below (and then did some research to find more!), you will be getting many emails about new survey offers. To minimize the chance of missing an offer amongst your other emails, it is recommended to have a separate email account just for your survey project. All you need to do is set up a free email account at [Hotmail](#), [Gmail](#) or [Yahoo](#) and you're set!
3. **Bookmark all of your survey sites.** This is a simple way to keep track of all the survey sites that you are signed up to. After doing this, you will have easy and simple access to all your survey sites without having to type in (and remember for that matter!) the website address every time. On Firefox, just go to the Bookmarks tab at the top of the browser and click 'bookmark this page'. On Explorer, use the Favorites button on the left side of the browser just below the address bar.

4. **Set up a document with all your login information.** Another title for this strategy point is **STAY ORGANIZED!** As with any online or offline venture, if you are not organized you are not going to reach your maximum potential. With that being said, I recommend setting up a document that has all your login information for every site. It can be as simple as a notepad document, but if you want to get fancy, you can use an Excel spreadsheet. Be sure to record the site, the URL for each site, and your login information for each site. If you make the URL clickable, your document you also serve the same function as your bookmark list.

5. **Complete the ENTIRE user profile for each survey site.** On most survey sites, you will find that you can fill out a user profile. A lot of the times these are optional, but I highly recommend that you fill out the entire profile for each site regardless if it is mandatory or optional. By doing this you will dramatically increase the amount of surveys that you qualify for. Some profiles are quite long to fill out, but I promise you that it will be worth it in the end.

6. **Check each survey site at least once a day.** Some survey sites may not send you an email to notify you of surveys you qualify to take, so make sure you check all your survey sites regularly to make sure you are not missing any offers. Many surveys have time limits, so you want to make sure you do not miss out on any offers.

7. **Be patient!** You may not get a flood of new survey offers daily, but the longer you stay with a survey company the more you will be rewarded. Survey companies want loyal, long-term users, so stick with it and have fun.

Below are the sites that I recommend that you sign up for to get started. As I said before, this is not a complete list, but is merely a starting point. After you establish yourself with the sites below, I recommend you do some research to find other reputable companies.

Highly Recommended, but not free (the free ones are below!)

- [Survey Scout](#) – This is not free, but this company has access to over 250 Online Marketing companies that are looking for opinions. Surveys (\$5 to \$75 per survey) are only a small part of this site. You can also participate in Focus Groups (up to \$150 per hour), take Phone Surveys (up to \$120 per hour), test new products (and keep it too!), and preview movie trailers (\$4 to \$25 per hour). The cost of Survey Scout is a one-time cost of \$34.95
- [Paid Surveys Etc.](#) – Although not free, PSE is a leader in the customer opinions business. They offer their users surveys, focus groups, and new products to try at larger payouts than the free companies. The package usually sells for \$69.95, but if you enter this code: etc50off, you will get it for half price! Not enough of a bonus? Just try to exit the page and they will take another \$10 off the price!
- [Make Money Taking Surveys](#) – Make \$40 to \$160 per hour sharing your opinion with marketing giants like Pepsi, Sony and McDonalds. Start the day you sign up and get paid in as little as 7 days. Again, for a little bonus, try to exit the page and you will get a work at home kit free!

- [Paid Surveys Online](#) – This site has been in the online opinions business since 2002. Great payouts and you get a \$20 survey as soon as you register. You also get bonuses that include, getting paid to drive, get paid to read emails, and getting paid to pass out free samples. This site has recently knocked their price from \$59.95 to \$34.95!

Recommended free sites (payouts not as high, but still worth it!)

- [Survey Adventure](#) – A FREE resource that is much the same as Survey Scout, but lower payouts. They provide a list of companies that are looking for consumer opinions.
- [MyView Survey Panel](#) - Males surfers (preferred) who join MyView for FREE can take part in surveys, movie screeners and magazine test covers and get paid cash.
- [Reward Port](#) – Complete Surveys and Offers for points that can be redeemed for gift cards and prizes. FREE to join.
- [Fusion Cash](#) – A FREE loyalty program that rewards users for taking surveys, trying products, and more. Pay in cash!
- [Survey Panel Group](#) - FREE membership. Aside from getting paid cash for surveys, you can also enter into draws to win \$100,000, trips, and TVs

- [ECN Research](#) - ECN Research is an interactive survey company where users are rewarded for their opinion. Incentives for users include \$500 shopping sprees, free ring tones, free vacation vouchers to over 50 destinations, and more.

Thanks for taking the time to read my ebook. I hope you can use the tips and enjoy the websites I have recommended. If you have any questions regarding any of the sites or strategies, please feel free to contact me: admin@webtelsolutions.org
